PERMISSIBLE TOTAL WEIGHT

Zulässiges Gesamtgewicht

Das zulässige Gesamtgewicht setzt sich aus dem Gewicht des Fahrers, der Zuladung (Gepäck, Kindersitze, etc.) und des Fahrrads zusammen. Es wird sowohl in der Betriebsanleitung als auch auf dem Typenschild angegeben. Das zulässige Gesamtgewicht ist ein wichtiges Merkmal des Fahrrads und muss neben der Fahrradkategorie, der Ausstattung, der Rahmenform und der Rahmenhöhe zu Ihnen als Fahrer passen.

Bitte achten Sie bei ihrer Kaufentscheidung darauf, dass Sie das zulässige Gesamtgewicht bei der Nutzung nicht überschreiten. Allerdings führt ein zu großzügig gewähltes zulässiges Gesamtgewicht zu keinem weiteren Vorteil. Vergleichbar mit der Rahmengröße muss das zulässige Gesamtgewicht auf Ihre individuellen Bedürfnisse ausgerichtet sein.

Permissible total weight

The permissible gross weight consists of the weight of the rider, the load (luggage, child seats, etc.) and the bicycle/eBike. It is specified both in the operating instructions and on the type plate. The permissible gross weight is an important feature of the bicycle/eBike and, in addition to the bicycle category, the set-up, the frame shape and the frame height, it must suit you as a rider.

When making a purchase decision, please make sure that you do not exceed the permissible gross weight in use. However, an overgenerous permissible gross weight does not lead to any further advantage. Comparable to the frame size, the permissible gross weight must be tailored to your individual needs.
